**Subject: Reference Letter for Master Ltd**

This letter serves as a reference to the manning agent named Master Ltd, based in Ukraine.

I have cooperated with Master for almost ten years, using their services in recruiting Ukrainian and Russian seafarers for Bulk Carriers and Container vessels.

During that period, they have proven to be reliable, professionals, with prompt response and the majority of the seamen they proposed were appropriately skilled with good performance on board.

In the few cases that there was a problem with the recruitment or the performance of a seaman the personnel of Master assisted in resolving any potential issue.

Respectfully,

For Caliber Maritime S.A.
